

## Climate control starts with your windows.

It's no secret the sun's rays can cause car interiors to become unbearably hot when the windows are rolled up. But you can keep your cool. LLumar® automotive window tints are proven to reduce interior surface temperatures by as much as 30° F. While others bake, you'll bask in a more comfortable car.

This cooling action can also help with fuel efficiency because lower interior temperatures means you don't have to run your air conditioning as often, improving fuel efficiency and reducing carbon emissions. LLumar automotive window tints help to create a safer, more comfortable ride for everyone.

## Quality you can count on.

Proudly made in the U.S.A., high-performance LLumar® brand window tints help protect and improve homes, businesses, and vehicles worldwide. Manufactured by Eastman Chemical Company, LLumar products are recognized for their outstanding appearance and durability. Professionally installed, LLumar window tints are backed by one of the industry's best warranties.\* This, along with a reputation for quality and innovation, has made LLumar one of the best-selling and most-respected window-tinting brands in the world.

LLUMAR® AUTOMOTIVE  
WINDOW TINT

## Guaranteed to perform down the road.

When professionally installed by factory-trained technicians, LLumar® window tints are guaranteed to stand up to the test of time. We guarantee\* that our advanced technology will keep your window tint from changing color, bubbling, cracking, peeling, or de-metallizing for as long as you own your vehicle so you can rest assured knowing that your vehicle will always look good inside and out.

\* Certain restrictions apply; see an authorized dealer for warranty details.

## Sunblock for your car and the people inside.

Safe driving means more than just avoiding accidents. It also means limiting exposure to harmful ultraviolet rays when you're on the road. Did you know the driver's side of your body is most at risk for exposure to damaging UV rays that accelerate the aging process and increase your risk of skin cancer? The same UV rays that can cause wrinkles on your skin can also fade and crack your car's upholstery. LLumar automotive window tints block more than 99% of harmful UV rays, safeguarding you, your family, and your investment.

Reduce interior surface temperature by as much as 30°F

## Improve your view. Improve your comfort.

For a comfortable ride, you've considered your tires. You may have chosen the seat style you prefer. But what about your windows? When it comes to riding in total comfort, there may be nothing as important as upgrading your glass. Quality tinting can make a car's interior more comfortable with less strain on the AC, not to mention the driver's eyes.

With LLumar window tint you can enjoy a more confident ride that comes from knowing you and your family are protected from the sun's harmful UV rays, heat and glare. No matter how much time you spend in your car, you deserve the comfort, style, and total protection of LLumar automotive window tints—the most trusted brand on the market.

## Protect your privacy from prying eyes.

LLumar window tints not only reduce heat and glare, they also add style and protection to your vehicle. Available in a variety of shades, from clear to dark charcoal, you can choose a look that not only rejects heat, but also reflects your personality. For further peace of mind, LLumar tinting can also help protect your privacy and your valuables from prying eyes.

**Window tint is recommended as part of a comprehensive skin care program.**
